

## Fleetstar-Reporter – cost effective vehicle location and fleet management information delivered into your inbox

Reduce operational costs

Increase visibility of fleet movements

Improve management and measurement of mobile workers

Increased legislative compliance

**For the busy manager, Fleetstar-Reporter delivers essential fleet performance reports straight to your inbox, providing quick access to key data**

**Fleetstar-Reporter also gives you the ability to react in real-time by providing live vehicle locations on all your vehicles, all of the time.**

Fleetstar-Reporter is an easy to use internet-based application providing the core vehicle location information needed to improve the management of a mobile workforce.

Based on Cybit's market leading telematics solution, Fleetstar-Online, Fleetstar-Reporter is ideal for businesses that require a simple and cost-effective vehicle tracking solution.

Fleetstar-Reporter offers customers a highly scalable solution. As your business needs grow there is an upgrade path allowing customers to choose the level of service needed to support their business. Fleetstar-Reporter customers can easily upgrade to Fleetstar-AVL, which offers enhanced functionality and a comprehensive yet flexible reporting suite.

**Summary Timesheet**

**How it works:** Unlike many other tracking products, with Fleetstar-Reporter each vehicle's location, speed and direction are recorded every 20 seconds and transmitted via GPRS every 5 minutes. This information is then displayed on Fleetstar's highly accurate street level mapping.

## Cybit – the market leaders in vehicle tracking solutions:

Fleetstar-Reporter is underpinned by robust technology and the experience of market leaders. With in excess of 1,000 customers, Cybit is the partner of choice for household names such as Sainsbury's to You, River Island, Alfred McAlpine, NCP, InterserveFM together with hundreds of companies both large and small across the UK and Europe.

## Key Benefits
